

B. Claims

Please add new claim 27 and amend claims 12 and 19 as follows. The following is a complete listing of the claims and replaces all earlier listings of claims in the present application.

1. - 11. (Cancelled)

12. (Currently Amended) A pharmaceutical composition in an oral solid molded fast-dispersing dosage form comprising an active ingredient and a non-hydrolyzed, non-gelling fish gelatin carrier which releases the active ingredient, wherein said composition disintegrates within 1 to 60 seconds of being placed in contact with fluid, and wherein said dosage form comprises a network of the active ingredient and the non-hydrolyzed, non-gelling fish gelatin carrier ~~prepared by the process of subliming solvent from an admixture in the solid state in which the admixture comprises the active ingredient, the non-hydrolyzed, non-gelling fish gelatin carrier and a solvent.~~

13. - 14. (Cancelled)

15. (Previously Presented) The pharmaceutical composition according to claim 12, wherein the active ingredient is present in an amount ranging from about 0.2% to about 95% by weight of the composition in dried dosage form.

16. (Previously Presented) The pharmaceutical composition according to claim 15, wherein the active ingredient is present in an amount ranging from about 1% to about 20% by weight of the composition in dried dosage form.

17. - 18. (Cancelled)

19. (Currently Amended) The pharmaceutical composition according to claim 12, wherein the non-hydrolyzed, non-gelling fish gelatin is spray-dried non-hydrolyzed, non-gelling fish gelatin.

20. (Previously Presented) The pharmaceutical composition according to claim 12 further comprising an additional ingredient selected from the group consisting of matrix forming agents, sugars, cyclic sugars, amino acids, preservatives, surfactants, viscosity enhancers, coloring agents, flavoring agents, pH modifiers, sweeteners, taste-masking agents, and combinations thereof.

21. - 26. (Cancelled)

27. (New) The pharmaceutical composition according to claim 12, wherein the network of the active ingredient and the non-hydrolyzed, non-gelling fish gelatin carrier is prepared by the process of subliming solvent from an admixture in the solid state in which the admixture comprises the active ingredient, the non-hydrolyzed, non-gelling fish gelatin carrier and a solvent.
